

Compliance action taken for childcare provision

EY362003/C307204

Date: 08/03/2017

Summary of outcome

We carried out an inspection on 7 February 2017 which judged that the overall effectiveness of the provider was inadequate and did not meet the needs of the children who attend.

Following the inspection we issued the provider with actions to complete in a welfare requirement notice. These are detailed in full in the published inspection report.

A monitoring visit was conducted on 27 February 2017. During the visit it was found that the provider has taken steps to ensure that both actions issued in the welfare requirement notice were met. Since the inspection, the provider and manager have undertaken training has which supported them to evidence that they are now fully aware of the action they should take if an allegation of harm is made against a member of staff at the nursery. In addition, managers at the setting have implemented a programme of supervision for staff to provide support, coaching, training and opportunities for confidential discussion of any concerns.

The provider was able to evidence how they have responded effectively to the notice served and Ofsted are satisfied that no further action needs to be taken.

The next visit will be a full inspection. The provider remains registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare

providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.
