

Compliance action taken for childcare provision

EY387257/C310304

Date: 22/04/2017

Summary of outcome

On 21 March 2017, the provider notified us that an incident occurred at the nursery.

This relates to the Early Years Foundation Stage Requirement regarding suitable people and accidents or incidents, specifically the legal requirement suitable people that states providers must have effective systems in place to ensure that practitioners, and any other person who is likely to have regular contact with children, are suitable.

On 19 April 2017, we carried out an announced visit to the provider to discuss the incident.

We met with the manager and area manager to discuss the concerns and look at relevant documentation.

We found that the provider met their legal responsibility to notify Ofsted of a significant event.

We also found that the provider has effective systems in place to ensure that practitioners are suitable to fulfil the requirement of their roles.

As a result of the incident the provider had taken action to;

ensure that all accidents and incidents are recorded.

Ensure any use of physical intervention is recorded and shared with parents and/or carers on the same day, or as soon as reasonably practicable.

Therefore we took no further action.

The provider remains registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.
